

# Proven Packages™ PPI

The first of our Proven Packages is a favourite with many smaller establishments such as pubs, small hotels, nursing homes and restaurants particularly during kitchen refurbishments.

The Mini kitchen provides an excellent facility for up to three staff to work in comfort and the addition of the coldroom (fridge or freezer) allows for weekly deliveries of chilled or frozen food. This package is also a great hospitality kitchen and is often chosen for short term event projects as it is all delivered on a single truck and trailer and the hire rates offer superb value for money.

Don't forget that this Proven Package can easily provide a facility with dishwashing capacity by choosing Favoured Footprint B which includes a 25 basket per hour undercounter dishwasher.

## Equipment Key
