

# Proven Packages™ PP5

**PP5** is a favourite for the larger catering establishment and is called on especially during refurbishment projects that can last from a few weeks to over a year.

Even though the Aquarius dishwash unit is sometimes on the large side for the size of kitchen, it provides invaluable storage space during longer hire periods.

**PP5** can be increased in production capacity by going for one of the heavy-duty Favoured Footprints, such as M or P, which can be backed up by upgrading the dishwasher to one of the more powerful 115 or 150 rack machines.

## Equipment Key

- |                                    |                              |
|------------------------------------|------------------------------|
| 1 Preparation Table                | 11 Hot Cupboard 1900mm       |
